DETAILED ACTION

Remarks

1. In applicant's response dated October 15, 2007, the applicant indicated that a Supplemental Preliminary Amendment was filed on November 7, 2006. The preliminary amendment had not been associated with the application file at the time the Office Action dated July 11, 2007 was mailed. The applicant has proceeded on the assumption that the Supplemental Preliminary Amendment has not been entered. The applicant has provided a copy of the Supplemental Preliminary Amendment along with the current Amendment dated October 15, 2007. To correspond to applicant assumption and to keep the record clear, the Supplemental Preliminary Amendment has not been entered to the record.
2. In response to applicants Amendment, dated October 15, 2007, the examiner acknowledges the addition of claims 29-38 and the cancellation of claims 16 and 18. Claims 15, 17 and 19-38 are pending.
3. The examiner acknowledges the correction to the objection of the Specification set forth in the Office Action mailed July 11, 2007.
4. Regarding the 35 U.S.C. 102(b) rejection of claims 15-18 and 21-24 as being anticipated by Roth (US 3,871,760), the examiner has considered applicant's arguments in light of the amended claims and withdraws the rejection.

Allowable Subject Matter

5. Claims 15, 17 and 19-38 are allowed.
6. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 15, the prior art does not teach and/or suggest "a gripper platform and/or spacing window which are supported on one contact surface of the image widow via at least three projections, which projections define corner points of a geometric figure" as amended by applicant.

Regarding independent claims 19 and 25-28, the applicant has rewritten the previously dependent claims in independent form as the examiner indicated the claims would be allowable if rewritten in independent in the Office Action mailed July 11, 2007.

Regarding independent claim 29, the prior art does not teach and/or suggest a film guide for a move camera which requires that at least one of the gripper platform and the spacing window is supported on at least one contact surface of the image window via at least three projections" in combination with the other limitations set forth in claim 29.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
